## Sgwd Henrhyd or Henrhyd Falls

Park: Brecon Beacons National Park, Dol Henrhyd,  
Neath SA10 9PG

There is a free car park for the falls with picnic bench.

Hendryd Waterfall is South Wales's tallest waterfall with a 90ft drop. It is situated near Coelbren on the river Nant Llech.

A spectacular and mysterious sight especially as, for the sure footed, it is easily possible walk behind the falls. The fossil trees which stand outside Swansea Museum were found here by Sir William Edmond Logan who later became the head of the Geological Survey of Canada. The waterfall was also the entrance to the bat cave in the film Batman – The Dark Knight Rises.

It is a steep walk that can sometimes be slippery, wear waterproofs if planning to get close on wet days, but wet days are the best to appreciate this spectacle.

From the apartment, take Pantyffynon Rd to College Row/B4599. Then turn left onto College Row/B4599. At the roundabout, take the 2nd exit onto Trawsffordd/B4599 and turn right onto the A4067 and A4221 to Onllwyn Rd. Then take a road called Heol Eglwys to Dol Henrhyd, where you will find the car park entrance.
